

Sustainable landscaping

UTOPIA LANDSCAPE DESIGN, is passionate about the environment and believe we are priveleged to be able to play a role in assisting our clients to achieve any level environmental sustainability.

There are many things that can be done, big and small to ensure we have minimal impact on our surroundings and in many cases save money as well.

We can improve the livabilty of your home and landscape through well considered design and will be adding more information in these pages soon . . . so come back and check regularly for more tips and ideas.
